NATIONAL CONFERENCE

ON

RECENT ADVANCES IN MICROBIOLOGY & BIOFUELS

SEPTEMBER 12-13, 2015

Organized by

Department of Microbiology and Bioinformatics,
Bilaspur University, Bilaspur (C.G.)

Sponsored by

The Chhattisgarh Council of Science & Technology (CGCOST)

VENUE

Department of Microbiology & Bioinformatics,
Old HighCourt Building, Near Gandhi Chowk
Bilaspur University, Bilaspur – 495001 (C.G.)

ABOUT BILASPUR

Bilaspur city situated on the bank of Arpa river is 125 km north of the state capital, Raipur. It is the second-largest city in the state of Chhattisgarh. Chhattisgarh State High Court at Bilaspur privileges it to host the name 'Nyayadhani' (Law Capital) of the state. Bilaspur is known for its aromatic Doobraj rice, handloom woven colorful soft Kosa silk saris, and more for its rich, varied and colorful culture. The climate is pleasant and mild in the rainy season (min. temp. 15 °C).

ABOUT UNIVERSITY

Bilaspur University (Viswavidyalaya) is State University which has been established by the Gazette notification on 03.02.2012 of Chhattisgarh Act No 07, 2012, The University is situated on Old High Court Building, Near Gandhi Chowk Bilaspur city. There are nearly 161 Govt. and private colleges affiliated in the 05 districts of Chhattisgarh State which together constitute the jurisdiction of Bilaspur University. The colleges carry out undergraduate and postgraduate studies in different streams of Science, Arts, Commerce, Law and Education and Centres of research. The University plans to develop strategy for enhancing the range of pedagogic approaches and the use of technology. As a part of this approach, the University plans to start classrooms into state of the art ones, enabling teachers to teach using wide variety of media.

ABOUT DEPARTMENT

Department of Microbiology and Bioinformatics was established in Bilaspur University, in the year 2013, with the objective of imparting quality education in the field of Microbiology and Bioinformatics. The department offers two years M.Sc. Microbiology and Bioinformatics course. It also offers M.Phil. and Ph.D. programmes in Microbiology, Bioinformatics and related areas. With rapidly evolving technology and the continuous need for innovation the department has always produced quality professionals, holding important positions in Microbiology and Bioinformatics industry in Chhattisgarh and India.

ABOUT THE CONFERENCE

The technologic changes that have taken place during the past few years have lead the microbiological science to a new era. This conference plans to reflect on some of the recent advancements in the field of Microbiology. The impact of technological advancements in Microbiology and the future

trends will be highlighted.

Interest in molecular microbiology is gaining new impetus from the relative ease and rapidity with which such small genomes can be entirely sequenced. This development is beginning to have significant impact on all areas of prokaryote biology, from pathogens to extremophiles, and will fuel new developments, for example, in drugs, vaccines and industrial enzyme research. This conference will provide a multidisciplinary forum for the discussion of all aspects of microbiology: from cell biology and immunology to genetics and evolution, and ranges across virology, bacteriology, protozoology and mycology.

The world is developing not only industrially but also technologically. Along with these developments the concern has also grown for an economy and environment particularly with the issues like global warming and depleting oil reserves. These issues are driving worldwide interest in exploring for renewable resources that can be used as feedstock for biofuel production. Hence as a need of an hour biofuel production will also be highlighted theme of this conference.
